FINANCIAL PERFORMANCE

During this year your Company has achieved a turnover of ₹ 4613.08 Crore as against ₹ 7257.19 Crore in the previous year. Your Company posted a Loss of ₹ 628.7 Crore as against Loss (before Tax) of ₹ 1451.56 Crore in the previous year.

Consolidated turnover of ₹ 5535.24 Crore has decreased as against ₹ 8670.03 Crore in the previous year. Your Company posted Consolidated Loss of ₹ 619.08 Crore as against Loss (before Tax) of ₹ 1454.87 Crore in the previous year.

Your Company has faced strong challenges due to various micro and macro factors and has tried to mitigate those using its core strengths in robust manufacturing practices and presence in niche market segments:

i. Stand-alone Profit before Interest, Tax, Depreciation, Amortization and Exceptional items has increased due to focus on high margin products and exports.

ii. Interest cost have shot up by 20% due to stretched working cycle and because of sub-optimal trends prevailing in the industry and constrains faced by company from the supplier and customers.

iii. The global and domestic steel market has been experiencing tepid demand at the present price points due to over-capacity and dumping of steel products by steel surplus nations.

OPERATIONS

Your Company has serviced 148 countries since its entry into the export business and is recognized as quality supplier in both developed and emerging markets. Your Company has able to maintain its presence in the International Market in spite of change in regulations in some of the countries.

Steel industry has been through one of the difficult phases in the past several years due to weak consumer demand

following liquidity crises arising out of demonetisation of high value currency notes. While the government had in February announced INR 6,500 Crores investment on infrastructure development. However, lack of government financing and disappearing private investment have forced a slowdown in steel demand over the last two years.

(iii) Original Equipment Manufacturer (OEM) market:

In the Original Equipment Manufacturer (OEM) market, the Company has continued its focus on high growth, profitable and niche areas including appliances segment compared to our other segments like Automotive, Construction and Electrical Equipment segments. OEM market overall, has been one of the highly profitable segments for your Company during the period under review.

Your Company has made commendable gains in Refrigerators and Washing Machines components with majors like Samsung, Whirlpool and Godrej. Your Company is also working towards development of new products such as VCM refrigerator doors and other doors for our key strategic appliance customers. Your Company is working closely with the global arms of Samsung and Whirlpool for their global supplies and is also working on initiating exports through our strategic customers to other emerging and developed countries.

In the building and construction segment your Company continues to maintain strong contact with major component manufacturers like Shakti Hormann, NCL Altek and Integrated Cleanroom in this segment.

In the General Engineering segment the Company continues to be an established supplier to Godrej & Boyce, Rittal and other vendors to Siemens.

(iv) Retail Transformation Program:

Your Company's continuous effort on 'Retail transformation program' has paid its fruits by establishing the 'Uttam Suraksha' GC (Galvanised Corrugated Roofing Sheets) brand as the leader in Maharashtra with more than 50% market share and increasing its penetration in rural and urban areas. It is also recognized as one of the major Brands in its segment in other domestic Markets like Kerala, Madhya Pradesh, Gujarat, Andhra Pradesh, Karnataka and Chhattisgarh, etc.

Your Company has come up with many strategic initiatives like the launch of new product -"Brighter Spangled GC"

to differentiate itself from other competitors. During the period under review, your Company has also launched several branding initiatives through radio/print media and enhanced its customer connect through its presence in various exhibitions and fairs across the country.

We continue to strengthen our presence in the key colour coated demand centres with a market share of 6% overall. Your Company is in the process of executing multiple product and branding strategies to enhance the brand awareness of our product.

Your Company is evaluating expansion through digital means as well. We believe that this will help us in establishing ourselves as a successful brand in our weaker segments too.

(v) Other strategic initiatives

MANAGEMENT DISCUSSION AND ANALYSIS

Pursuant to the regulation 34 read with the Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 your Directors wish to report as follows:

(i) Industry Structure & Developments:

The Steel Industry is considered as backbone of the modern society and has direct correlation with the industrial developments. However, in recent years, the global steel industry has been passing through the stress due to significant oversupply in certain geographies, declining demand, falling spreads between steel prices and raw material prices and volatile currency movements.

Indian government has made efforts to revive the steel industry by imposing anti-dumping duty, safeguard duty on imported steel products, supportive government

policies. After these initiations, in the recent period the steel sector in India has shown some signs of recovery and the domestic demand have raised. Now the sector is currently poised for its next wave of growth supported by the recent reforms launched by the government, showing a tremendous opportunity for the steel industry to grow exponentially.

(ii) Opportunities & Threats:

India is poised to become the 2nd largest steel producing country after China over the next two years, as the country’s steelmakers continue to add capacities. The country’s steel ministry is framing a new steel policy to increase the capacity of steel production to 300 million tonne by 2025.

There is a huge scope for Indian steel makers due to the country’s low per capita steel consumption and positive future outlook due to increase in consumption from construction, automobile and railways sectors. The ambitious infrastructure projects and the thrust in manufacturing through the “Make in India” campaign are steps in the right direction. The plan for smart cities, improved road and rail connectivity by building highways, bridges and dedicated freight and superfast rail corridors have huge potential to spur domestic steel demand

For the first time in last 3 years, India was a net exporter of steel. Our country’s steel exports grew by 150% to 0.75 million tons, while there has been a decline in imports by 46% to 0.49 million tons.

The increase in demand for steel is still struggling to keep pace with the rise in capacity as well as Global oversupply, low global prices, Chinese dumping, High levels of debt and failure to service bank loans are the points of concern for the Steel sector in India.

(iii) Segment-wise or Product-wise Performance:

Since your Company operates only in one Segment, segment-wise or product- wise analysis of performance is not applicable.

(iv) Outlook:

India’s average Gross Domestic Product (GDP) growth has been estimated to grow by 7.1% in 2016-17 and 7.4% in 2017-18, down from 7.93% in 2015-16 on account of demonetization drive effected on 8th November, 2016.

According to World Steel Association, the demand of steel in India is expected to grow by 5.7% in 2017 against a global growth in demand of 0.5% in 2017. Indian economy is one of the fewer economies to have stayed ‘resilient’ even during ‘global slowdown’ due to its focus on its reforms.

The rising infrastructure in the Country is ultimately going to increase the consumption rate of steel. The announcement of new steel policy is a step towards steering the industry to achieve its future potential and strategy to deal with various impediments like high input cost, availability of raw materials, dependency on imports, financial stress etc. and it will also facilitate India’s annual production to 300 Million Tonne, by giving preference to locally manufactured steel and reducing imports to nil by 2025.

(v) Risks and Concerns:

Risks, challenges and volatility are part and parcel of any industry and always the point of concerns for the management of the Company. Your Company has subdued it through well planned strategies and actions. Your Company is continuously evolving and improving systems and measures to take care of all the risk exigencies involved in the business. All inherent risks are identified, measured, monitored and regularly reported to the management. The management decides measures required to overcome these risks and ensures implementation of proper risk mitigation plans. The risk report and mitigation plans are presented to the Board of Directors periodically

In accordance with Regulation 17 of the Securities Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, your Company has duly adopted steps for framing, implementing and monitoring the risk management plan and accordingly your Directors have put in place critical risk management framework across the Company for identification and evaluation of all potential risks.

Moreover, Internal Audit was conducted by M/s. K S Aiyar & Co.- Chartered Accountants, in various areas of operations of the Company. The internal audit process includes review and evaluation of effectiveness of existing processes, internal controls and compliances. The internal audit report alongwith audit findings and tracking of process improvements & compliances is presented for review to the Audit Committee of Board of Directors.

Your Company has also established and maintained the Internal Financial Control to ensure the orderly and efficiently conduct of its business *inter alia* adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

(vii) Discussion on Financial Performance with respect to Operational Performance and state of Company's affairs:

The finance cost has significantly increased because of unexpected stretched working capital. The profitability of the Company improved as compared to last year mainly due to imposition of Minimum Import Price (MIP) by the Government and various marketing initiative taken by your Company. However, the margins remained at subdued level due to the lower demand. Majority of the earnings has been used to meet the overdue finance cost and principal repayment obligations towards the banks/ Financial Institutions. However, the earnings were not sufficient to regularize the entire overdue position resulting in increase in overdue position in Meeting the obligations towards the Banks/ Financial institutions, the details of which is specified in the Annexure II of the Independent Auditors' Report. The focus on credit control, inventory management and extended trade credits from the suppliers has somewhat helped working capital and liquidity management. The Company is working with the Banks/ Financial institutions to find a mutually acceptable solution. In this regard, your Company has submitted its restructuring plan in December, 2016 to the lenders. After evaluation of restructuring plan, the lenders will advise on implementation of the debt restructuring plan in due course of time.

Annexure - B to Independent Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Uttam Galva Steels Limited ("the Company") as of 31st March 2017 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered

Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit

in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance

that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and Directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**A. NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS OF THE COMPANY AND ITS SUBSIDIARIES FOR THE FINANCIAL YEAR 2016-17****1.0 Accounting Policies:****1.01 (a) Statement of Compliance / Adoption of Ind-AS for first time:**

In accordance with the notification issued by the ministry of corporate affairs, the company has adopted Indian Accounting Standards (referred to as "Ind-AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 with effect from April 1, 2016. Previous period has been restated to Ind-AS. In accordance with Ind-AS 101 First-time Adoption of Indian Accounting Standards, the Company has presented a reconciliation from the presentation of financial statements under Accounting Standards notified under the Companies (Accounting Standards) Rules, 2006 ("Previous GAAP") to presentation of Financial Statements under Ind-AS of Shareholders' equity as at March 31, 2016 and April 1, 2015 and of the comprehensive net income for the year ended March 31, 2016.

Fair Value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(c) Use of estimates and judgements:

The preparation of these financial statements in conformity with the recognition and measurement principles of Ind-AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the financial statements and the reported amounts of income and expense for the periods presented. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected. Key sources of estimation of uncertainty at the date of the financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of impairment of investments, useful lives of property, plant and equipment, valuation of deferred tax assets, provisions and contingent liabilities.

Useful lives of property, plant and equipment.

The Company reviews the useful life of property, plant and equipment at the end of each reporting period. This reassessment may result in change in depreciation expense in future periods.
